- Took opportunities to meet with Daegu AAFES leadership to discuss/impact positive change regarding the School Meal Program on a local level. Meals did get noticeably better in both quality and presentation.
- Higher participation in SAC than in prior years as we have sought to tailor meeting times and topics to be more relevant.
- The SAC heard parent concerns regarding the EO's that came out earlier this year and their impact on school. While specific answers to some questions were not shared, the fact that the community and school came together and acknowledged concerns and point parents in the way they could go to get answers to their questions.
- Started a community discussion related to updating DMHS' student awards protocols, procedures, and expectations to recognize more students for their character, achievements, and efforts further nurturing a positive school climate. These changes are expected to take effect next school year.

4. Issues or initiatives that were unresolved and recommended for completion during the next school year include:

- We are only part way through with our community engagement as we seek to update the new student awards. We will work on this through the end of the school year and on into the summer to hopefully have it in place before the start of next school year.
- Increasing Participation in SAC (and other parent organizations)/Continuing to work on bringing parents into the building and having parents actively participate in the SAC and other organizations that need their support to function and support the school. We will monitor, work, and advertise the situation throughout the summer to be able to encourage participation in SAC as we move into the new school year.
